Model	Compatible HON-AOR-CS Analog Call Station Models
HON-AOR-CS-FM-1	All HON-AOR-CS Analog Call Station models

# Installation

 <b>CAUTION</b>	<p><b>It is the installer's obligation to ensure compliance with all national, regional, and local regulations. Installation should be performed only by qualified personnel in accordance with the National Electrical Code (NEC), NFPA 72, and other federal, state, and local statutes and building codes. Using shielded cable is recommended to avoid noise, hum, and other operational anomalies.</b></p> <p><b>This product is intended for indoor use only.</b></p>
---	---

## Flush Mount Dimensions

The overall dimensions of the **HON-AOR-CS-FM-1 Flush Mount** measure 7.5" x 4.25" x 2.5" (190.5mm x 107.95mm x 63.5mm). Further details are dimensioned below.

## Hardware Installation

 CAUTION	<p><b>It is the installer's obligation to ensure compliance with all national, regional, and local regulations. Installation should be performed only by qualified personnel in accordance with the National Electrical Code (NEC), NFPA 72, and other federal, state, and local statutes and building codes. Using shielded cable is recommended to avoid noise, hum, and other operational anomalies.</b></p> <p><b>This product is intended for indoor use only.</b></p>
--	---

You will need a TS-10 Pin-in-Torx screwdriver or bit to complete installation. If you do not own one, you may purchase one from your local industrial supply store or from Talkaphone. Contact your distributor for purchasing information.

 ATTENTION	<p><b>Prior to installation, please confirm install height and location meets the requirements of ICC A117.1 (2017) Ch. 7 and ADAAG (2010) Ch. 7.</b></p> <p><b>If there is uncertainty, check with the Authority Having Jurisdiction (AHJ).</b></p>
--	--

1. Install the **HON-AOR-CS-FM-1 Flush Mount** into the wall cutout. Please make sure the mount is installed such that the "UP" indicator (shown below) is pointing toward the ceiling.

2. Ensure that all the proper wiring connections have been made to the HON-AOR-CS Analog Call Station.
3. Place the HON-AOR-CS Analog Call Station into the **HON-AOR-CS-FM-1 Flush Mount**.
4. Secure the faceplate of the HON-AOR-CS Analog Call Station with four (4) Torx TS-10 security screws (included with the HON-AOR-CS Analog Call Station).

## System Maintenance

### Annual Testing

NFPA 72 requires that area of refuge two-way communication systems be **inspected, tested, and maintained** on an **annual basis**. NFPA 72 specifies the method required as “verify location and condition”.

As such, the following guidelines are highly recommended:

- An annual inspection and testing be scheduled as part of the facility/building preventative maintenance schedule
- Each **HON-AOR-CS Analog Call Station** should be inspected and tested.
- The Command Unit should be inspected and tested.
- The Sub-Command Unit should be inspected and tested.
- Verify the condition of the backup battery and replace if necessary.
